Severe Weather Outlook Tuesday, May 12, 2020

Hazardous Weather

Today's Forecast

Large temperature contrast. T-storm possible in SW TX Panhandle

Weather Forecast Office

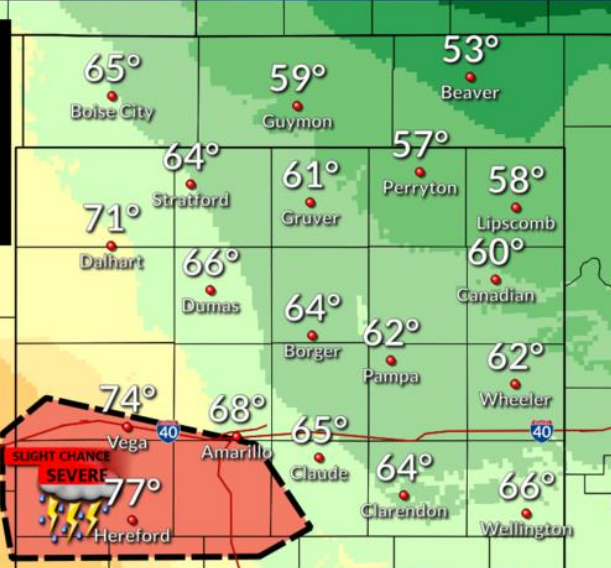

Amarillo, TX

Issued May 12, 2020 4:53 AM CDT

Quite a contrast in temperatures today with 50s to the NE to 70s in SW. If clouds hang tough, temperatures maybe a few degrees cooler than currently forecaster.

Thunderstorm near a stalled front are possible in the SW TX Panhandle. Any severe thunderstorm could have large hail & damaging winds as the main hazard.

f t NWSAmarillo

weather.gov/ama

Quite a contrast in temperatures today thanks to a stalled front now over portions of the SW TX Panhandle. Temperatures will range from the lower 50s to upper 70s. Near the frontal boundary, storms, where some could be severe may develop this afternoon.

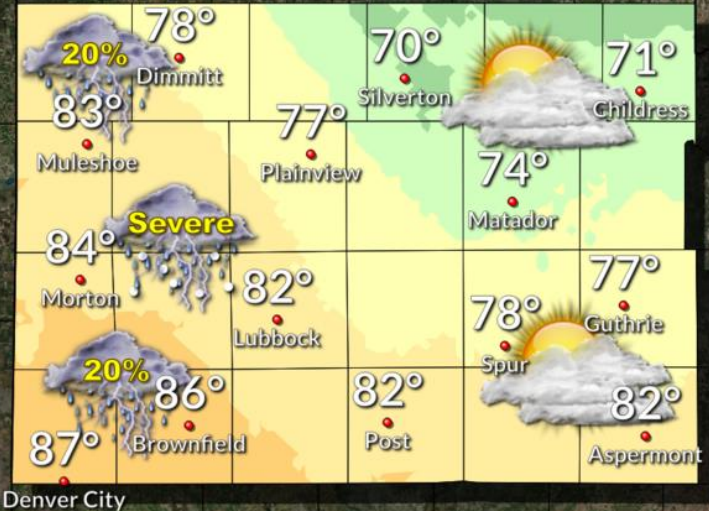

Today's Forecast

Severe thunderstorms possible this afternoon to the west

Weather Forecast Office

Lubbock, TX

Issued May 12, 2020 3:22 AM CDT

f t NWSLubbock

weather.gov/lub

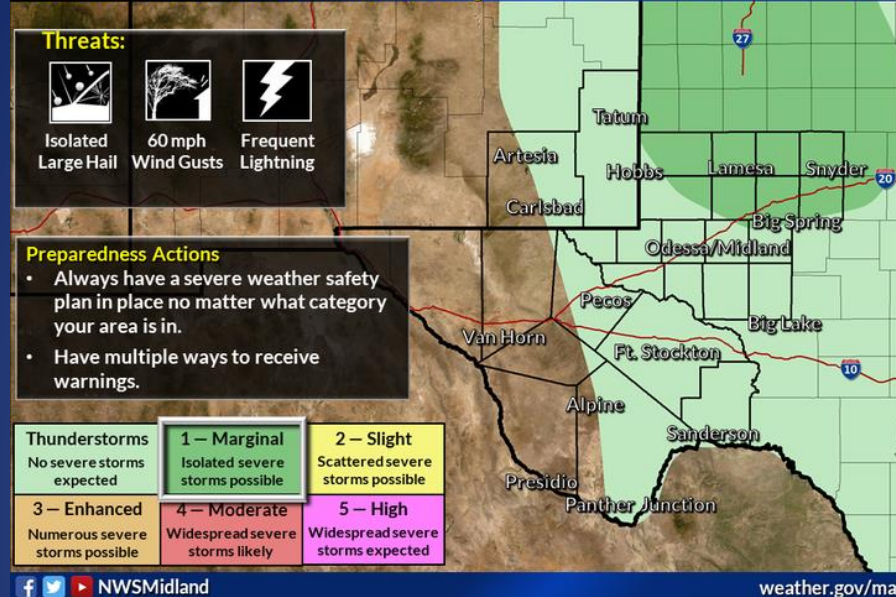

Isolated severe thunderstorms will be possible later this afternoon across the western South Plains and the extreme southwestern Panhandle where temperatures will push into the 80s. To the east, cloudy skies through a good portion of the day will help keep temperatures cooler with highs in the 70s.

Hazardous Weather

Severe Weather Outlook

Between 3 PM this afternoon and 11 PM this evening

Weather Forecast Office
Midland/Odessa, TX
Issued May 12, 2020 1:50 AM CT

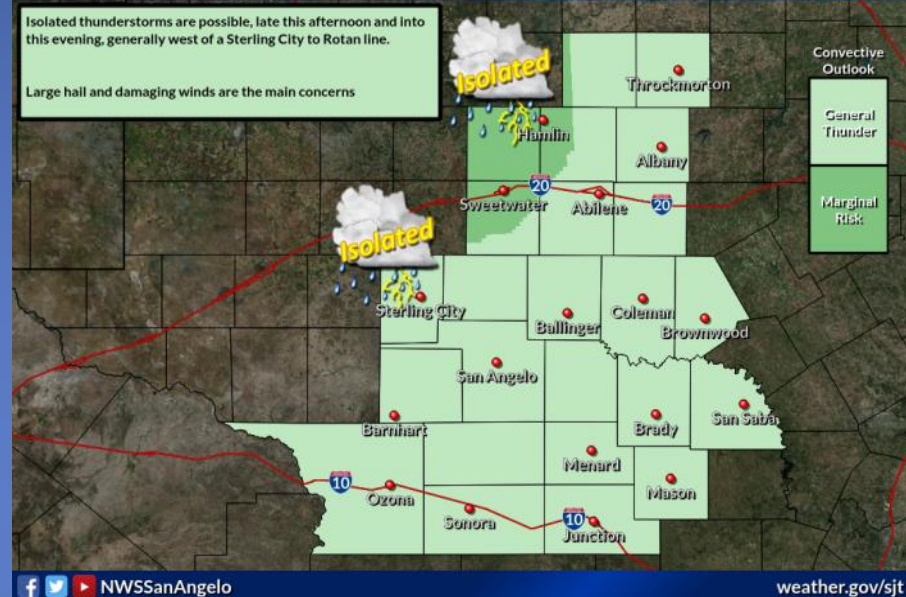

A few strong to severe storms are possible this afternoon and evening across the north and northeast Permian Basin. A strong storm cannot be ruled out south and southeast of Ft. Stockton this afternoon.

Isolated Thunderstorms

Late this Afternoon and Evening

Weather Forecast Office
San Angelo, TX
Issued May 12, 2020 3:27 AM CDT

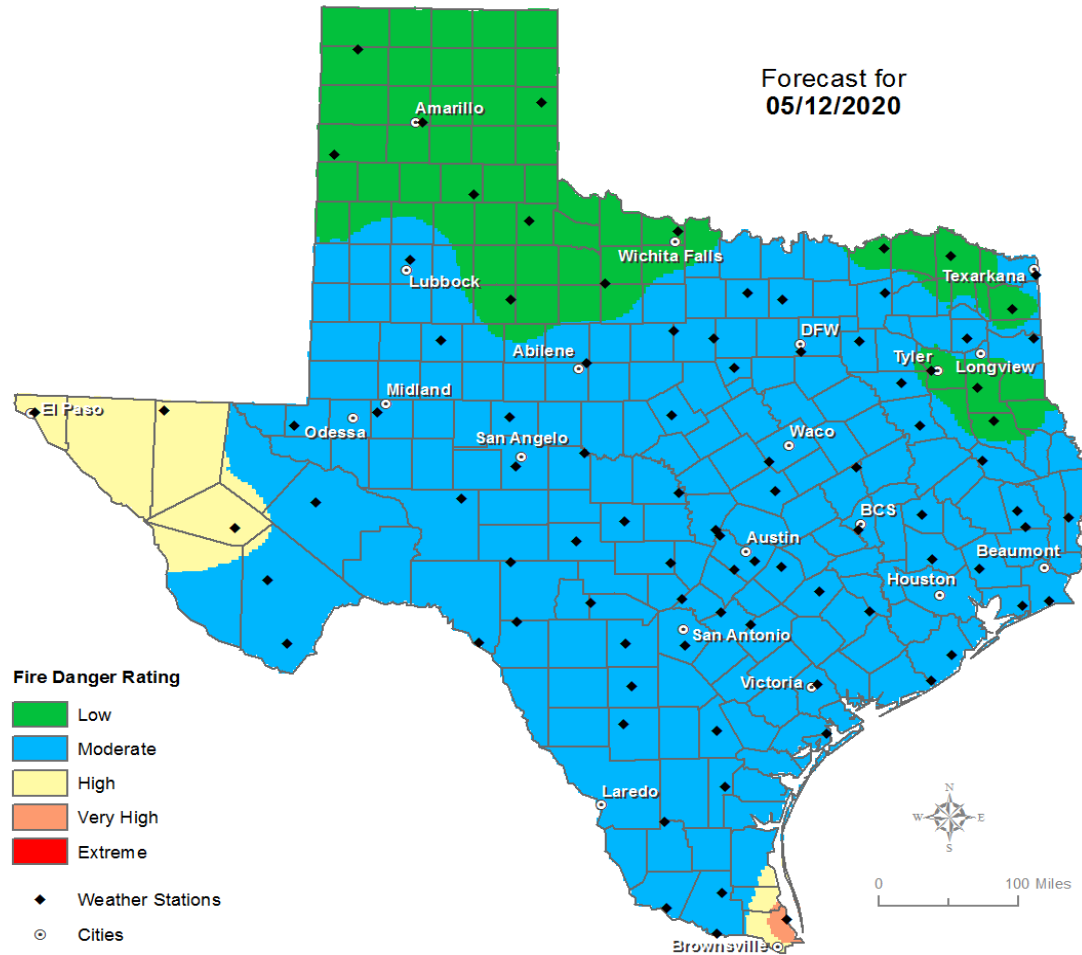

Isolated thunderstorms are possible, late this afternoon and into this evening, generally west of a Sterling City to Rotan line. Large hail and damaging winds are the main concerns.
